The No. 1 show for the machine tools and metalworking industry in China

Since 1991 CIMT in Beijing has been developed to the most important platform for the machine tools-related industry not only in China, but in the whole Far East. Since long time this show has been overlooked as the venue capacities in Beijing aren't been satisfying for the great demand from international as well as from domestic exhibitors.

For 2021 this will be unfortunately not changed and with the again further growing importance of the Chinese market for the world-wide economy CIMT 2021 will be again the busiest hub for the related industry. The twin-show in Shanghai in even years, CCMT 2020, unfortunately had to be finally cancelled due to the Corona pandemic. But the economic projections expected within the coming months, latest from the end of this year, forecast an increased demand for investments and the renewed start of manufacturing and introduction of new technologies for future challenges.

CIMT 2021 will come just in time to match the demand of the industry!

In order to secure for the German and German-based exhibitors a substantial portion of the space we kindly ask you to make your (non-binding) reservation as soon as possible – for example with the here attached reply-slip. This shall help us to underline our space requests in negotiations with the organizer CMTBA – China Machine Tool and Tool Builders' Association.
